

SAVING OUR ISLAND:

ISLAND
NATURE
TRUST

*Partner with Island Nature Trust
to make a real difference*

Broken Landscape

Our Island home is fragmented. A birds-eye view of PEI reveals a land resembling a patchwork quilt. From the sky, we bear witness to a scarred landscape harbouring wildlife that is suffering greatly.

Nature Provides

Island Nature Trust recognizes just how dependent all of us are on nature to shield our communities from the oncoming effects of climate change. By acquiring natural land, we can heal, reconnect, and protect these spaces for the benefit of Islanders and wildlife, forever!

How Can Your Island Business Help?

Now is the perfect time to partner with or sponsor Island Nature's mission to protect 10% of our Island. In the the first quarter of 2022, every monetary amount contributed to the Saving Our isLAND campaign will be tripled by the Province of PEI and our partners in conservation!

Your business could be pivotal in helping us weave back together PEI's natural landscape for the benefit of the community. Help us to reach the goal of becoming the first Net Zero province in Canada.

If your business is interested in partnering with INT,

MYTH #1: PROTECTING NATURAL LAND ONLY BENEFITS WILDLIFE.

Ecologically diverse land on PEI supports people through the services they provide like flood protection and groundwater recharge.

It is Island Nature Trust's mission to ensure what little remaining natural land in PEI is protected for the benefit of both Islanders and wildlife.

We're asking Island businesses to give back to this dynamic world that continues to give so much to us all, by partnering with us today!

The Province of PEI has set the target of protecting 10% of our Island and to become the first province in Canada to reach Net Zero. This goal is absolutely doable, with a little help from Island businesses.

If every single Islander donated just \$1 today, thousands of acres of natural land will be protected for our community, forever!

ONE DOLLAR BECOMES THREE:

Thanks to the provincial government and our partners in conservation, every sponsorship dollar contributed by your business or its employees will be tripled!

Truly, we're in this together and EVERY dollar matters!

MYTH #2: WE'RE PAST THE POINT OF NO RETURN
