

PROTECTING PEI'S NATURAL SPACES

*Conservation Options
for Landowners*

ABOUT US

Island Nature Trust is a not-for-profit, non-government organization that has been dedicated to protecting Natural Areas in Prince Edward Island since 1979.

WHAT DO WE DO

Island Nature Trust protects PEI's natural landscapes for the benefit of all Islanders. This is accomplished by acquiring and stewarding natural areas, promoting private land protection, and monitoring for species at risk.

WORKING TOGETHER

Island Nature Trust is looking to connect with landowners and neighbours interested in working together to protect PEI's natural landscapes. There are several ways to help, including:

- Selling, donating, or bequeathing land to INT;
- Privately stewarding your land;
- Volunteering your time to support Island Nature Trust lands.

OUR CONSERVATION GOALS

LOCATION & CONNECTIVITY

Properties situated in large forest blocks, coastal regions, and riparian zones. Properties that are connected to privately or provincially protected land.

BIODIVERSITY & ECOSYSTEM HEALTH

Properties that contain a diverse array of mature, intact ecosystems and native wildlife.

SPECIES-AT-RISK HABITAT

Properties that contain important habitat for provincially rare and federally at-risk wildlife.

PARCEL SIZE

Properties over 35 acres or groups of connecting parcels to decrease fragmentation.

HOW YOU CAN HELP

Scan the QR codes to learn more!

BECOME A GUARDIAN

Volunteer as a Conservation Guardian to help INT monitor Natural Areas in your community. Scan the QR code or reach out to learn more.

PROTECT LAND

Do you have a property with valuable wildlife features that you would like to see protected? If you are interested in privately stewarding, selling, donating or bequeathing the land, scan the QR code or reach out using the contact information on the back to learn more.
